Civil Litigation and Trial

Donald G. Bertke II

ASSOCIATE

EXPERIENCE

Donald G. Bertke II is a seasoned attorney with more than a decade of experience handling personal injury and general liability claims, including motor vehicle and pedestrian accidents, premises liability, negligent security, and wrongful death matters. Having spent much of his career representing claimants, Don brings clients valuable insight into how opposing counsel build, value, and negotiate claims, and he uses that understanding to evaluate exposure early and craft effective defense and resolution strategies. He has extensive experience negotiating complex claims, including those involving significant surgical damages, and has represented parties at examinations under oath, recorded statements, global settlement conferences, mediations, probate on death cases, and guardianship hearings for the approval of minor settlements.
